EDUCATION

M.S. Computer Science Aug 2026 - May 2028 (Expected)
University of Southern California, Viterbi, Los Angeles

BTech Information Technology Aug 2022 - May 2026
Vidyalankar Institute of Technology, Mumbai **GPA: 9.56**

EXPERIENCE

Wii Labs USA (Mission Unicorn) Apr 2025 - Jun 2025
Software Development Intern *Mumbai*

- Led a **3-member engineering team** in an **Agile/sprint** workflow, shipping features every sprint.
- Engineered **REST APIs** (Firebase, Firestore, Auth) scaling a platform to **200+ active users**.
- Enforced **testing, documentation, and code review** for dependable production releases.

PROJECTS

Signify (AI Computer Vision Platform) Sep 2025 - Nov 2025
Python · MediaPipe · scikit-learn · Next.js · Flask

- Architected a full-stack **AI platform**: MediaPipe hand landmarks → **84-dim vectors** → **RandomForest** classifying **30 gesture classes** with low-latency webcam **multipart streaming**.

Formula 1 Data Analysis Dashboard Jan 2026 - Mar 2026
Python · Pandas · Plotly · Streamlit

- Engineered multi-table **ETL pipelines** in **Pandas/NumPy** joining races, qualifying, pit stops, and lap-time datasets (**701,000+ records**) into a deployed **Streamlit** dashboard with **KPI views**.
- Built **Plotly/Matplotlib** visualizations surfacing driver and constructor dominance and pit-stop efficiency trends.

Map-Walker (Geospatial Routing API) Jan 2026 - Feb 2026
Python · FastAPI · Graph Algorithms

- Architected a **FastAPI** backend (OSMnx + NetworkX) applying **BFS/DFS and shortest-path** algorithms to real-world OpenStreetMap road networks with robust **error handling and correctness checks**.

LEADERSHIP & EXTRACURRICULARS

Leadership & Community 2022 - Present

- **Open-Source**: Merged **3 PRs** (Hacktoberfest 2025); added international holiday support to a Python library used by **17k+ developers**; contributed data visualizations (GSSoC 2024).
- **Community & Honors**: ITSA PR Core coordinator for **200+ students**; survey paper published in the **IJRASET Journal** (2025); recipient of a **USD 20,000 J. N. Tata Endowment grant**; NSS math mentor; LA Food Bank volunteer.

SKILLS

- **Languages**: Python, Java, TypeScript/JavaScript, SQL, C/C++, Rust
- **Backend, Web & Tools**: FastAPI, Flask, Next.js, React, Node.js, Firebase, REST APIs, Docker, Git/GitHub
- **AI/ML & Data**: scikit-learn, PyTorch, OpenCV, MediaPipe, PPO (RL), Pandas, NumPy, Plotly, Streamlit
